## **FAIJAN GORI**

# Objective

Aspiring AI & Data Science professional with strong analytical and problem-solving skills. Proficient in Python, SQL, Django, and front-end technologies. Passionate about leveraging machine learning and data-driven solutions to create impactful projects. Seeking an IT internship to apply my skills, gain practical experience, and contribute effectively to innovative solutions.

### **Skills**

- Programming Languages: Python, SQL, HTML, CSS, Bootstrap, Tailwind CSS
- Frameworks & Libraries: Django, NumPy, Pandas, Scikit-learn, TensorFlow, Keras
- Version Control: Git & GitHub
- Foundational Knowledge: Data Structures & Algorithms (DSA)

#### Certifications

- Python Django App Development
- **ADCA**

- Diploma in Computer Applications (DCA)
- **MDIT**

### **Projects**

Codebetter Coursepage Clone

Flipkart Homepage Clone

#### **Autism Prediction Model**

Objective: Develop a machine learning model to Analysis autism using demographic and behavioral data.

**Dataset:** Kaggle dataset containing gender, age, ethnicity, and behavioral responses. Technologies Used: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras.

### Education

- B.Tech (AI & DS) | Mahakal Institute of Technology, Ujjain (R.G.P.V. Bhopal, M.P.)
  - o Current CGPA: 7.57
- 12th | Shramodaya Vidyalaya, Indore
  - 0 83.8% | 2021
